Resume – Data Analytics (Trainee, ATS)

Summary

Trainee profile targeting Data Analytics/BI roles. Strong SQL and relational modeling foundation (3NF), including reporting views and reproducible setup using Docker. Interested in metrics and report automation.

Skills

- **SQL/Modeling:** MySQL 8, PostgreSQL; 3NF; joins/aggregations; views; procedures/triggers
- **Reporting:** queries for metrics and summaries; views as a reporting layer
- **Tools:** Excel (intermediate/advanced), Git/GitHub, Docker Compose
- **Complementary:** Basic Linux, technical documentation

Relevant experience

Managing Partner / Systems Operations (Hotel OIKOS) — Ushuaia, Argentina — Aug 2020 – Dec 2025 (owner/manager) · Aug 2018 – Aug 2020 (IT support & infrastructure)

- Access and role management in SaaS platforms (Cloudbeds): users, permissions and credentials.
- Channel integrations (Booking/Expedia) and operational configuration (pricing/availability/rules).
- Designed and deployed a mesh Wi■Fi network (router + 3 APs) across 2 floors / 16 rooms + common areas; troubleshooting.
- IT support: PC/services maintenance; issue resolution and documentation.

Projects (GitHub)

- **Airport Management Database** — summary/revenue views; reproducible Docker setup.
- **La Montaña Printing Management Web** — catalog and operations; basis for metrics (orders/products).

Education

Higher Technical Degree in Systems Analysis — Escuela Da Vinci (Buenos Aires) · In progress (expected graduation 12/2026) · GPA: 9.8/10

Additional training

- Interested in Power BI/Qlik; solid foundation to ramp up on DAX/ETL in a trainee role.

Languages

- Spanish: native
- English: B2 (advanced conversational; comfortable interviewing in English)

Additional info

- Availability: immediate · Remote (preferred) · Open to relocation (LatAm/EU) · Driver's license and own vehicle · Polish citizenship (passport renewal in progress)
