Resume – DevOps/Infrastructure (ATS)

Summary

Final-year Systems Analysis student (Da Vinci, GPA 9.8/10) targeting Junior DevOps/Infrastructure roles. Hands-on experience with systems operations/support (Linux/Windows Server), networking and troubleshooting. Portfolio projects include Docker-based reproducible environments (docker-compose) and auditable automation scripts.

Skills

- **Infra/DevOps:** Linux (Ubuntu, CentOS), Windows Server (basic), Git/GitHub, Docker (basic), troubleshooting, networking fundamentals, basic shell scripting
- **CI/CD & tooling:** GitHub (basic workflows), technical documentation, repo hygiene (README, scripts, env templates)
- **Data:** SQL (MySQL/PostgreSQL), relational modeling, PK/FK constraints, indexes

Relevant experience

Managing Partner / Systems Operations (Hotel OIKOS) — Ushuaia, Argentina — Aug 2020 – Dec 2025 (owner/manager) · Aug 2018 – Aug 2020 (IT support & infrastructure)

- Implemented and administered Cloudbeds PMS: users/roles, access management, operational configuration and analytics.
- Configured Channel Manager integrations with Booking and Expedia (pricing, availability, rules).
- Designed and deployed a mesh Wi-Fi network (router + 3 APs) across 2 floors / 16 rooms + common areas; connectivity troubleshooting.
- IT support: PC maintenance and services; issue resolution and documentation.

Projects (GitHub)

- **Airport Management Database** — MySQL 8: 3NF ERD, RBAC, views/procedures/triggers, docker-compose plus smoke-test and db-shell scripts.
- **La Montaña Printing Management Web** — Fullstack: React 19 + Vite, Express REST API, local SQLite, email/password auth + optional Google Sign-In, HttpOnly session cookie.
- **Docker-Status-Buttons** — GNOME (Ubuntu 24): ON/OFF toggle and always-visible Docker Engine/Desktop status with auditable scripts.
- **Hotel Management System** — Laravel 12 + Livewire 3 + PostgreSQL: reservations, rooms, roles/permissions and backoffice.

Education

Higher Technical Degree in Systems Analysis — Escuela Da Vinci (Buenos Aires) · In progress (expected graduation 12/2026) · GPA: 9.8/10

Additional training

- Coursework and hands-on projects in JavaScript, web development, Linux terminal and backend fundamentals (certificates available).

Languages

- Spanish: native
- English: B2 (advanced conversational; comfortable interviewing in English)

Additional info

- Citizenship: Polish (passport renewal in progress)
- Availability: immediate · Remote (preferred) · Open to relocation (LatAm/EU) · Driver's license and own vehicle
